## SUMMARY

College graduate with a BS in Physics and self-taught skills as a software developer. Dedicated and disciplined worker aiming to contribute to your company's objectives and assume greater responsibility. Striving to use both academic and self-taught skills to fill your open software developer position.

## EXPERIENCE

### [Pokemon Team Recorder](#)

Python/Django made website allowing the user to register with the site and record and update their various Pokémon teams from various Pokémon games. Uses Linode, Apache2, and Git.

### [Calculator Web Extension](#)

Scientific calculator as a popup from the browser toolbar, including exponents, logarithms, and trigonometry, respecting the order of operations. Works in Chromium browsers (Brave, Chrome) plus Firefox and Edge. Made from almost all raw JavaScript.

### [Shapes App](#)

Uses object-oriented programming with Python to generate various shapes with user-entered parameters. Includes methods to show additional measurements (such as area, perimeter, etc.).

### [Strategic Tic-Tac-Toe](#)

Python program which allows for an enlarged Tic-Tac-Toe game with a single large 3×3 board each containing a smaller 3×3 board. More complicated and challenging (and fun!) than regular Tic-Tac-Toe.

## SKILLS

### **Soft Skills**

Problem Solving, Creativity, Self-starter, Communication

### **Hard Skills**

Python (plus numpy and matplotlib), JavaScript (with Bootstrap and jQuery), SQL, Physics

## EDUCATION

### **University of Alaska Fairbanks**

BS in Physics, minor in Mathematics

Class of 2019, GPA: 3.06

Dean's List for spring 2019
